## SUMMARY

I am a dedicated B.Tech student specializing in Information Technology with a strong foundation in programming languages and web development. I have successfully designed and developed applications that enhance learning experiences. With effective time management and leadership skills, I thrive in collaborative environments to achieve technical goals. I am eager to contribute my skills in challenging roles that require problem-solving and adaptability.

## PROJECTS

### LEARNING AND DEVELOPMENT (L&D) MANAGEMENT APPLICATION ([Link](#))

- Designed and developed core modules such as course management, user onboarding, and learning analytics dashboards.
- Integrated third-party LMS platforms and e-learning content providers via APIs.
- Implemented role-based access control to manage different user types including admins, trainers, and learners.
- Enabled automated notifications, reminders, and reporting for training schedules and assessments.
- Collaborated with cross-functional teams to align the application with HR and business development goals.

### PORTFOLIO WEBSITE ([Link](#))

Designed and developed a personal portfolio website to showcase projects, skills, and professional experience. The website features a modern, responsive UI built with HTML, CSS, JavaScript, React and highlights key achievements in web development. Integrated smooth navigation, animations, and contact forms to enhance user experience and engagement. Deployed the site using GitHub Pages and Vercel ensuring fast loading and mobile compatibility.
